

Our method, *Using the Language*, focuses on understanding each learner's specific language needs and goals. We begin with a 30 minute *Let's Meet*. We encourage learners to express themselves verbally and to use the language right from the very beginning.

We understand that learners might be nervous or even a little afraid during their first meeting with a native speaking trainer. We have designed the *Let's Meet* keeping this in mind. During this time learners can expect to do the following:

- exchange introductions
- talk about past learning experiences
- determine language goals/priorities
- discuss expectations
- use the chat room
- talk about our gentle approach to error corrections
- get to know the *ER Signature Report*
- discuss any questions
- trainer's initial evaluation

The *Let's Meet* is just the beginning of the most personalized, effective learning method available today. Our method, *Using the Language* is intense and efficient. After just one meeting, our learners know they have finally found the method they have been searching for to help them on the pathway to becoming fluent in English. They gain self confidence, feel comfortable with our professional trainers and look forward to the next lesson.

Shortly after the *Let's Meet*, a lesson will be scheduled with the primary trainer. During this lesson, and depending on the individual's needs, learners can expect to do any of the following:

- review their previous *ER Signature Report*
- discuss a current event
- exchange opinions about an article
- explain a grammar rule
- engage in general or spontaneous conversation
- practice using idioms or everyday expressions
- learn new grammar tips
- edit documents
- practice role playing or presenting

Our experienced trainers will decide on the best combination of activities for each lesson based on the learner's personal interests, goals and ability. Learners are always astonished at how at ease they feel right from the beginning with our method.
